

Dear Mr. Mustermann,

Just like the years before Hilscher will exhibit its latest product innovations during the important *SPS/IPC/Drives* fair in Nuremberg (Germany). You are more than welcome to visit the Hilscher booth during this show as well as other international fairs. The next dates are:

24th – 26th Nov. 2009:
SPS/IPC/Drives, Nuremberg, Germany (Hall 6, Stand 120)

25th – 28th Nov. 2009:
SCF System Control Fair, Tokyo, Japan (Hall West-2, Stand 2-21)

10. – 13. Dez. 2009:
IA Industrial Automation, Mumbai, India (Hall 1, Stand 1C 318)

For an overview of upcoming events, please click [here](#).

Hilscher netPLC – Fieldbus communication and PLC functionality combined in one chip

netPLC product line combines Fieldbus and PLC functionality in one chip, integrated on a ready-to-use hardware. The PLC and the PROFIBUS-DP Master protocol run autonomously and turn your PC into a full automation platform, particularly suitable for critical monitoring processes. Thanks to the independent slot-PLC you keep full PC performance for HMI and SCADA systems.

New Product Line:

NPLC-C100-DP is available as PROFIBUS-DP master with PLC programming interface **IEC 61131 CoDeSys V3** by 3S, **ProConOS eCLR 2.1** by KW-Software or as **STEP7® compatible PLC** by **IBHsofttec®**.

Highlights

- **Performance level comparable to Siemens S7-300® series**, netPLC is less expensive than a traditional hardware-PLC and provides more reliability than a pure soft-PLC.
- **Excellent price-performance-ratio**, PLC programming interface, bus configurator and PLC runtime license are included in the price.
- **Reduced costs thanks to All-In-One solution**, autonomous operation of PROFIBUS-DP Master protocol and PLC functionality in a standardized hardware. Plug & Play without any development risk.
- **Prevent system breakdown**, external power supply for continuous operation & battery backup to secure process data storage.
- **Fast replacement in case of failure**, configuration and project data can be copied easily to other slot-PLC via memory card.
- **You have the choice**, netPLC will be available with IEC 61131 CoDeSys® PLC V3 by 3S, ProConOS eCLR 2.1 by KW-Software or as STEP7®-compatible PLC by IBHsoftec®.
